RESEARCH INTERESTS

Software Engineering and Cyber Security
- Mobile application security
- Security requirements patterns

EDUCATION

Doctor of Philosophy, Computer Science   **August 2017**
Department of Computer Science
University of Texas at San Antonio, San Antonio, TX
- *Advisor:* Dr. Jianwei Niu
- *Dissertation Title:* Applying Semantic Analysis for the Alignment of Natural Language Privacy Policies with Android Application Code

Bachelor of Science, Computer Science   **May 2012**
Department of Computer Science
University of Texas at San Antonio, San Antonio, TX
- *Concentration:* Computer and Information Security

RESEARCH EXPERIENCE

Privacy Policy Analysis   **June 2015 to Present**
Collaborative Research: University of Texas at San Antonio, Carnegie Mellon University

- Constructed privacy phrase ontologies for the analysis of policy violation types
- Implemented natural language processing techniques for identification of privacy policy intent

Mobile Application Privacy   **June 2015 to Present**
Collaborative Research: University of Texas at San Antonio, Carnegie Mellon University

- Created framework for detection of privacy policy violations in Android application code.
- Designed and implemented POLIDROID, a publicly-accessible and open-source tool suite for the detection of privacy policy violations in compiled and source code (http://polidroid.org).
- Designed and implemented POLIDROID-AS, a publicly-accessible and open-source IDE plugin for the detection of privacy policy violations in real-time during development (http://polidroid.org/plugin).

Security Requirements Patterns   **January 2012 to Fall 2014**
Collaborative Research: University of Texas at San Antonio, Carnegie Mellon University, North Carolina State University

- Collaborated with other researchers in order to improve the usability of security requirements patterns by software developers through empirical studies and analysis.
- Proposed a template which acts as a set of guidelines for creating and describing security requirements patterns. These guidelines serve to describe the characteristics and boundaries of security requirements patterns in order for software developers to better be equipped for pattern development and use.
- Designed user studies involving expert knowledge elicitation for security requirements.

- Implemented the Security Pattern Repository, a publicly-accessible and open-source web-based repository of security patterns (`http://sefm.cs.utsa.edu/repository`).

TEACHING AND
MENTORING
EXPERIENCE

</div><div>

The University of Texas at San Antonio, San Antonio, TX

- Assistant Professor of Practice   **September 2017 - Present**

- Teaching Assistant II - CS3773 Software Engineering   **Spring, Summer 2017**
  - Organized and instructed course

- Mentor - Mobile Application Data Collection Design   **Spring 2016**
  - Guided three graduate students through their research for their master's thesis based in my preexisting works
  - Oversaw two groups of undergraduates during their implementation of back-end servers for mobile applications.
  - Guided students on design of PHP and NodeJS software.

- Teaching Assistant - CS4723 Software Validation and Quality Assurance **Fall 2012**
  - Graded coursework.

- Teaching Assistant - CS1173 Data Analysis and Visualization   **Fall 2012**
  - Assisted instructor in conducting lectures by answering student questions regarding MATLAB.
  - Graded coursework.

- Teaching Assistant - CS1117 Introduction to Computer Programming II **Fall 2009**
  - Conducted weekly recitation sessions to strengthen student understanding of Java programming material.
  - Graded coursework.

ARTICLES AND INTERVIEWS

- Paul Flahive. "UTSA Team Develops Tool Analyzing App Privacy", Texas Public Radio, 2016, https://goo.gl/4eJvhF.
- **Rocky Slavin**. "Does your Android App Collect More than it Promises to?", IEEE Software Blog, 2016, https://goo.gl/1RgBB4.

CONFERENCE TALKS

- "Toward a Framework for Detecting Privacy Policy Violations in Android Application Code", *28th ACM/IEEE International Conference on Software Engineering (ICSE)*, 2016, Austin, USA.

- "Managing Security Requirements Patterns using Feature Diagram Hierarchies", *22nd IEEE International Requirements Engineering Conference (RE)*, 2014, Karlskrona, Sweden.

- "Characteristics and Boundaries of Security Requirements Patterns", *2nd International Workshop on Requirements Patterns (RePa) co-located with 20th IEEE International Requirements Engineering Conference (RE)*, 2012, Chicago, USA.

INVITED TALKS
- "Toward a Framework for Detecting Privacy Policy Violation in Android Application Code", *University of Texas at San Antonio, College of Sciences Research Conference*, 2015, USA.
- "Characteristics and Boundaries of Security Requirements Patterns", *University of Texas at San Antonio, College of Sciences Research Conference*, 2012, USA.

HONORS AND AWARDS
- Carlos Alvarez Graduate Fellowship **2017**
- ACM SIGSOFT CAPS Award **2016**
- Armed Forces Communications and Electronics Association Cyber Security Scholarship **2014–2015**
- Armed Forces Communications and Electronics Association Cyber Security Scholarship **2013–2014**
- Graduate Diversity Recruitment Fellowship **2012–2013**
- Armed Forces Communications and Electronics Association Cyber Security Scholarship **2011–2012**
- HEB Developer Challenge First Place Recipient **2011**
- University of Texas at San Antonio President's List **Fall 2009**
- University of Texas at San Antonio Dean's List **Spring 2005**

INDUSTRY EXPERIENCE

Scienteer Technologies
Co-Founder/Volunteer **2015–Present**
- Created web-based system for management of thousands of science fairs with tens of thousands of users for various states.
- Designed form wizard for assisting middle and high school students in complying with International Science and Engineering Fair (ISEF) rules.
- Managed multiple cloud servers.
- Implemented REST API for third-party support.

UTSA - Center for Research and Training in the Sciences
Program Specialist **January 2010 to September 2012**
- Developed web applications used to maintain and facilitate the 2010, 2011, and 2012 ExxonMobil Texas Science and Engineering Fair website.
- Managed data for over 4,000 users using custom MySQL/PHP tools.
- Created registration and payment applications for multiple events.
- Managed web servers using Apache 2.0 and IIS 7 on several Linux and Windows machines.

Computational Biology Initiative
System Administrator Assistant/Web Developer **2009–2010**
- Created registration system for user management.
- Responsible for scripts used in managing various Unix systems used for high performance computing.
- Installed and managed various servers to ensure high availability.
- Assisted administrator in system troubleshooting.

SKILLS
General Programming and Scripting Languages:
- C, C#, C++, Java, Perl, PHP, SED, AWK, Python

Web Technology:
- Laravel, CSS, PHP, NodeJS, ReactJS, JavaScript, Jquery, AJAX, ExpressionEngine, Apache2

Database Technology:
- MySQL, MariaDB, Microsoft SQL, SQLite, Eloquent ORM

Model Checking:
- NuSMV

Productivity Applications:
- TeX (LaTeX, BibTeX), Vim, most common productivity packages (for Windows and Linux platforms)

Scientific, Engineering, and Statistical Applications:
- MATLAB, SolidWorks

Operating Systems:
- Microsoft Windows, Linux, and other UNIX variants
